

# SCCP Connects - Fall 2012 Learning Outcomes

The South Coast Conservation Program - "A multi partner conservation program helping facilitate projects and activities to restore and protect species and ecological communities at risk on the South Coast of B.C."

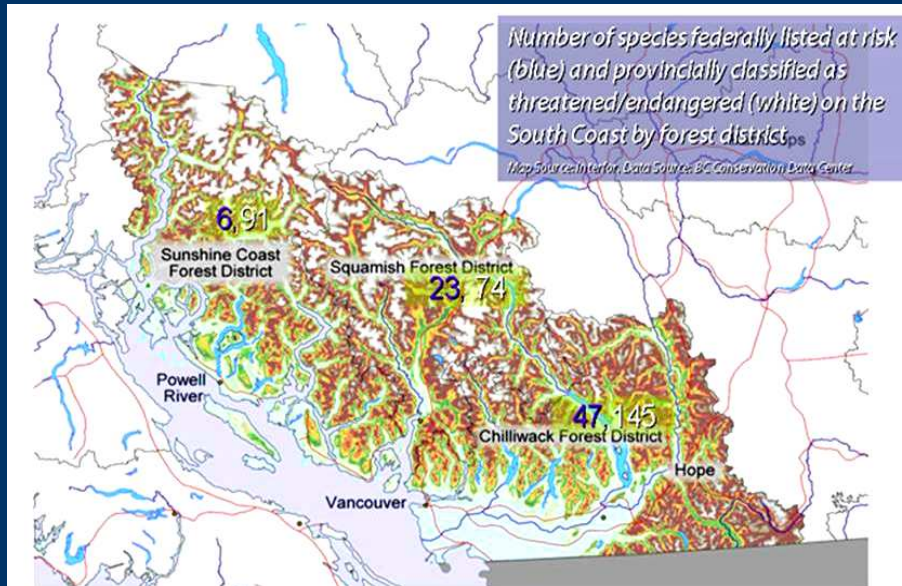

## SCCP Connects Fall 2012

November 7 2012, 1:00 pm – 4:00pm  
Room 103 Shadbolt Centre, Burnaby BC

### Learning Outcomes

A summary from afternoon of networking and visioning on the possibilities, issues and challenges for conserving species and ecosystems at risk on the South Coast of BC.

## The South Coast context

## Competition for habitat is tight!

Part 1: Participants were asked to provide a word or phrase that reflected a response to the following question: Species at Risk Are?

The following 'word cloud' shows many common perceptions around the challenges facing species at risk, and how much they are valued!

## Part 2: Knowledge Café

“A knowledge café or World Café is a type of business meeting or organisational workshop which aims to provide an open and creative conversation on a topic of mutual interest to surface collective knowledge, share ideas and insights, and gain a deeper understanding of the subject and the issues involved.”

Participants were asked to engage in roundtable dialogues to reflect on, discuss and visualize answers to the following questions:

- What are the challenges to species & ecosystems at risk conservation on the South Coast?
- What is your wish list for species & ecosystems at risk ?

Participants provided a diversity of perspectives using text and graphics

Policy/ legal limitations  
to identifying & protecting  
corridor connections  
between specific ecosystems  
to improve connectivity  
(Development Permit Areas,  
Covenants)

Nest Shell

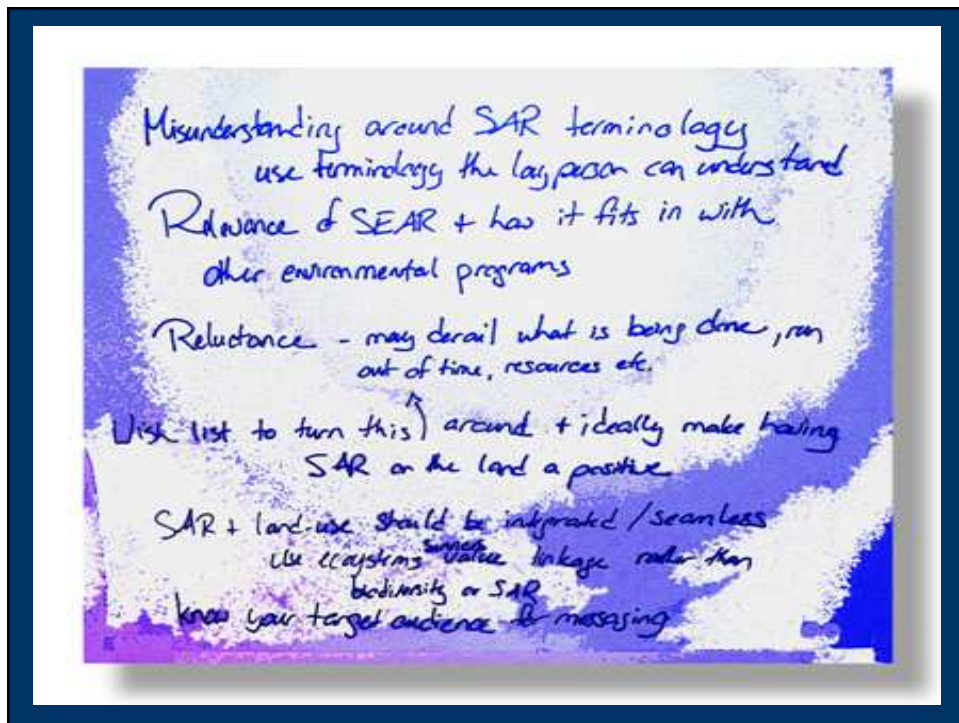

How to manage a property owner's fear of losing development rights if SAR are identified on their site.  
(want to avoid having people cut down/destroy SEAR)

How to manage a property owner's fear of losing development rights if SAR are identified on their site.  
(want to avoid having people cut down/destroy SEAR)

The SCCP will be working to continue hosting sessions like these provide an ongoing 'live' and in-person forum for networking. In the meantime keep the conversation going through your own networks, actions and shared learning outcomes. On behalf of the SCCP Steering Committee we appreciate all your efforts, energy and passion for conserving the incredible wealth that BC's at risk species and ecosystems represent.
